ABOUT US

Epocq.com is a programming lab, working on the design and development of cutting edge internet products. These products span numerous aspects of everyday life - social networks, internet services, financial markets and many more. We employ only the very best and brightest who are expected to contribute to both the ideas, as well as development of products. In return we offer a highly challenging work environment in a collegiate atmosphere and a direct share of the profits generated.

WHO WE HIRE

We only employ the best. We look for people who are:

- Open-minded, smart, inquisitive and constantly looking for ways to improve themselves and what they produce - a total commitment to quality
- Ambitious and eager to learn - with an aptitude for learning in a fast paced environment
- Strong believers in simplicity of design and appreciation of the complexity needed to get there
- Love to find innovate ways to resolve complex problems
- Receptive to new ideas and ways of doing things, and equally willing to share their knowledge with others, in an open and pragmatic manner
- Flexible and comfortable with change
- Self-motivated and can work equally well independently and as part of a team
- Professional and responsible approach, takes responsibility for their work and pride in their results

- Able to communicate well in English (written and spoken)
- A never ending drive to create perfection combined with pragmatic approach to delivery and exquisite attention to detail

OUR WORK ENVIRONMENT

To nurture the best, we give our team the support to grow and space to excel. We care about results, and we give you the freedom to deliver them.

- We focus on results
- We offer a collegiate, open environment, where everybody's opinion matters
- Open communication, everyone is expected to contribute and discuss ideas
- Friendly, flexible and challenging working environment
- Cross training across the entire company is pivotal to our success - everyone is encouraged to become an expert in everything
- A supportive and inclusive work environment
- We do not discriminate, we expect the same from you

THE ROLE

A dynamic internship, working on a diverse range of websites and internet products. As you learn new skills, you will have the opportunity to work on web, iOS and Android platforms, designing new screens and interfaces.

ESSENTIAL SKILLS

- Student or fresh graduate with a degree in graphic design or other technical subject
- Skilled in graphic design using Adobe software (illustrator and/or photoshop)
- Able to communicate well in English (written and spoken)
- An understanding of how people interact with applications and ability to think through problems from different perspectives
- A natural curiosity and strong drive to create perfection

DESIRABLE SKILLS

- Overseas education or work experience
- Experience with mobile application or web design
